The Kate Adams arrived from Arkaneas City at noon yesterday, and from the run made she indicates that she is limbering up to a "fty" condition, being only 5 hours and 38 minutes out from Helens, having made no landings on the way. She encountered heavy floating drift in the river during the passage and this compelled the wheels to be stopped several times. Many of the wheel-buckets or paddles were broken, and drift was piled several feet high on the guards behind the wheel.
